DECEMBER 2010

Comprehensive Plan Progress - December Update

As we look back not only on the month of December, but the entire year, we are appreciative for the countless hours given by the Steering Committee and the community as a whole for this effort. Shortly after the beginning of the year, the City of Branson began down the path of a Comprehensive Planning process to provide a roadmap and direction for the next twenty years. As a result, 2010 has been

a very productive year in the process and therefore we want to thank each and everyone of you for your help with the effort thus far. Through interviews, tours, meetings, presentations, conversations, and other interactions, we have gained much insight into the community and what directions to go. Although, most of the work has been completed, there is still a large portion to finish. In conjunction

with Design Workshop's efforts of drafting the plan, we anticipate getting back together with all of you to share updates of the plan within the next few months. Through the process, we have collected endless amounts of information from you and we want to be sure that it is being communicated in the way you intended. This is the community's plan and we look forward to your continued support for it in 2011!
